with 1 year local warranty**

~~Price: S\$249~~

Promo code **CALM10** for  
special launch price: S\$239

### TouchPoints for Calm

TouchPoints' neuroscience technology uses gentle, alternating micro-vibrations to calm you in seconds. Place your TouchPoints on wrists, in pockets, socks, or tank top straps when you feel anxious or overwhelmed and move your brain back into a state of calm at the push of a button.

TouchPoints Calm bundle features sleek-looking wristbands for ease of access and so that users to wear around the wrist.
